

Out Now! - our new range of Crystal Bowl only CDs

available as Chakra Tones in your Personal Key, the Chromatic Scale, Cycle of 4ths and Cycle of 5ths

Introducing our new range of Crystal Bowl only CDs, each track comprising approx 5 minutes of an individual bowl played and recorded in real time. The Chakra Tones CDs represent the Major Scale plus minor 6th interval played in all the 12 keys, C, G, D, A, E, B, F#, C#, Ab, Eb, Bb, F.

The CDs are perfect for toning up through the chakras using the sacred Sanskrit vowel sounds in the technique we've been teaching now for some time, and/or just listening to for silent meditation on each chakra, or through all as a general soundbath. Repeat play on a specific track will of course then allow you to work at length on a specific chakra.

At the Centre for Pure Sound we believe that the subtle body of each of us vibrates at a different frequency, so while one person's Root Chakra can be represented by C, another's will be C#, another's D, and so on. If you've ever had a 1-2-1 Soundbath with Dean or been to an **ANGELS OF SOUND Voice Playshop** you will know your key, and if you haven't, come and book in on one, now!

These CDs can also be played as 'background' knowing you will then be being tuned up with your own key notes.

Look out for our **NEW Full Soundbath**, the equivalent of one of our live Divine Union Soundbaths, on sale 2018.

CHAKRA TONES CD - perfect for toning the chakras to re-balance your body, mind and spirit using the sacred Sanskrit vowel sounds as shown on the cover. Chakra tones for each key = the Major Scale in that key plus the minor 6th interval for the Thymus chakra To find your Personal Sonic Note/Key contact Dean.

The above CDs feature all 12 bowls played in the Chromatic scale, Cycle of 4ths and Cycle of 5ths for further Soundbath journeys and meditations.

● These are CPS 'Organic' Live Recordings in Real Time of each Pure Sound Crystal Singing Bowl.

PAYMENT all CD's are £12 plus P&P. email Dean via: ahiahel@live.com

Please do Not Drive or Operate machinery whilst listening to this CD.
